

ALEX S. LIN, MD

1800 Fairburn Ave., Ste. 211
Los Angeles, CA 90025

December 2022

If you wish to come into the office for your appointment, please review the following protocols.

- If you are feeling ill the day of your appointment (and especially if you have a fever), please call to request a telehealth session instead.
- I will be wearing a mask for the entirety of your appointment (with the possible exception of taking sips of water) and respectfully ask that you wear a mask.
- The waiting-room door will be left unlatched so that you can push it open without using your hands. The call light automatically activates when the door is opened. You can push the door closed upon entering, if you wish, but I ask that you not touch the door knob.
- I will open and close all other doors needed for you to enter and exit the suite.
- Weather permitting, the balcony door will be left open to increase ventilation.

Thank you for adhering to these guidelines.
